SUBJECT INDEX

Abortion
maternal alcohol consumption, cirrhosis, socioeconomic status 211
Abstinence
defective function of GABA and serotonin in alcoholism, growth hormone secretion, GHRH, GHB, the sumatriptan test, arginine 85
Ageing
alcohol, recovery after long-term alcohol treatment, ageing, dendritic segment deletion, neuronal abnormalities, F344 rats 161
Aggression
cortisol as a predictor of drunken violence, alcoholism, ASP 621
neuronal mediators of aggression, bicuculline, amygdala, hypothalamus, cat 657
Alcohol
ageing, recovery after long-term alcohol treatment, synapse numbers, dendritic segment deletion, neuronal abnormalities, F344 rats 161
alcohol and GABA receptors, GABA binding, G proteins, islet-activating protein 153
alcohol preference, alcohol consumption, patterns of alcohol intake, pharmacological effects of alcohol, Sardinian alcohol-preferring rats 19
biochemical markers of alcohol use and abuse: CDT, GGT, ASAT, MAO, methanol measurements, 5-hydroxytryptophol, WHO/ISBRA Collaborative Project 133
early detection and management of alcohol problems, general practitioners' roles, education and training of GPs, WHO study 9
effects of alcohol dehydrogenase genotype on alcohol dependence and alcoholic liver disease, Asians/non-Asians 613
fetal alcohol syndrome in the ancient Near East 3
in vitro inhibition of NOS (nitric oxide synthase) by alcohol, conformation of NOS, cerebellum, tetrahydrobiopterin, L-arginine 683
neuronal mediators of aggression, bicuculline, amygdala, hypothalamus, cat 657
teratogenic effects of alcohol on the pre-ovulatory oocyte, prenatal exposure, spindle poison 113
the effects of alcohol on eye movement during reading, eye fixations/duration of fixations 275
Alcohol abuse
alcohol abuse markers, carbohydrate-deficient transferrin, 3-hexosaminidase isoenzyme B, aspartate aminotransferase, alanine aminotransferase, mean corpuscular volume, γ-glutamyltransferase 703
laboratory markers of alcohol abuse, carbohydrate-deficient transferrin, 2-sialotransferrin quantified by isoelectric focusing, psoriasis patients 195
Alcohol and reproduction
in-vitro fertilization, ovulation, parthenogenetic activation of oocytes, fragmentation of oocytes, rat 563
Alcohol and society
Dublin principles of cooperation among the beverage alcohol industry, governments, scientific researchers and the public health community 637, 639, 641
Alcohol consumption
association between alcohol consumption and mortality and morbidity, hospital admissions 173
cultural differences in alcohol consumption, alcohol and mortality, epidemiological models of alcohol consumption, Temperance, coronary heart disease 51
diagnosis of alcohol consumption, carbohydrate-deficient transferrin, high-performance liquid chromatography, anion-exchange chromatography, aspartate aminotransferase, radioimmunoassay, mean corpuscular volume 71
gustatory preferences: saccharin intake/quinine intake, anxiety, hyperactivity, locomotor activity in hyperactive/normoactive Wistar–Kyoto rats 485
pregnancy, alcohol and spontaneous abortion, cirrhosis, socioeconomic status 211
pregnancy, immune status, human milk, postpartum blood, leucocytes, cytokines 581
SECCAT Survey: alcohol-related problem questionnaire, self-reported alcohol consumption, quality of life, cost of alcohol-related problems 79
Alcohol dehydrogenase
alcohol dehydrogenase polymorphisms, polygenic mechanisms of alcohol-related disorders, identification of the *ADH2*3* allele in Native American Indians 129
changes in human serum alcohol dehydrogenase activity during retinoic acid treatment of cancer 739
Alcohol dependence
carbohydrate-deficient transferrin, γ-glutamyltransferase 731
does liver dysfunction explain neuropsychological status, hepatic encephalopathy 287
mortality of treated alcoholics, treatment outcome 573
osteopenia in alcoholics after tibial shaft fractures 599
Alcohol education
training, general practitioners, identification of alcohol problems by GPs 627
Alcohol harm
health warning levels, warning label legislation, Israeli, Arab and Jewish youth knowledge: pre-intervention data 251
Alcohol metabolism
accelerated alcohol metabolism in burn injury patients, medico-legal aspects, blood-alcohol levels 629
role of gastrointestinal factors in alcohol metabolism, alcohol dehydrogenase, cytochrome P450 2E1, mucosal injury, bacterial flora 543
Alcohol pharmacokinetics
menstrual cycle phases, alcohol intake, women 435
Alcohol preference
ethanol drinking behaviour in Sardinian alcohol-preferring rats, anxiety 443
Alcohol use disorders
in French hospital patients, CAGE self-questionnaire 769
Alcohol withdrawal syndrome
alcoholism, rating scale: AWS scale 753
markers of alcohol dependence, ethanol metabolism, low-molecular weight metabolites 761
Alcohol-related diseases
in general hospital patients, delirium, seizures, head injury, cirrhosis 179

Alcohol-related sudden death
alcohol intake, starvation, fatty liver, microvesicular/macrovesicular fatty changes 745
Alcoholic liver disease
γ-glutamyl transpeptidase isoforms in alcoholic liver disease 259
the role of hepatitis C virus in alcoholic liver disease, hepatocellular carcinoma 103
Alcoholism
alcohol withdrawal syndrome: AWS scale 753
cortisol as a predictor of drunken violence, ASP 621
long-term outcome in an alcohol-treatment programme, drinking status at follow-up 527
nitric oxide in alcoholism, neuronal nitric oxide, cerebrospinal fluid nitrite and nitrate 551
oxidative stress associated parameters: superoxide dismutase, lactoferrin, free radicals, alcohol dependence 65
relationship between helping alliance and outcome in outpatient treatment of alcoholics, psychiatric treatment, multimodal behavioural therapy, therapy outcome 241
significance of coronary death, cause-specific mortality 517
Bible
Talmud, fetal alcohol syndrome, Near East history 3
Biochemical markers
alcohol use and abuse, CDT, GGT, ASAT, MAO, methanol measurements, 5-hydroxytryptophol, WHO/ISBRA Collaborative Project 133
Blood alcohol concentration
overshoot, ethanol absorption, ethanol distribution, body water, empty stomach 501
Bone
bone formation/bone resorption/osteopenia, healing time, tibial shaft fractures in alcohol abuse 91
Brain membrane
brain membrane phospholipids, free fatty acid incorporation into brain phospholipids, phospholipid acylation, acyltransferases, ganglioside GM1, mouse 693
NMR signal intensity of ethanol *in vitro*, tolerance, rat brain 671
Burn injury
accelerated alcohol metabolism in burn injury patients, medico-legal aspects, blood-alcohol levels 629
Carbohydrate-deficient transferrin (CDT)
alcohol abuse markers, 3-hexosaminidase isoenzyme B, aspartate aminotransferase, alanine aminotransferase, mean corpuscular volume, γ-glutamyltransferase 703
CDT expression, CDT test kits, sensitivity, specificity, Axis % CDT, CDTect™, chronic drinking 507
diagnosis of alcohol consumption, high-performance liquid chromatography, anion-exchange chromatography, aspartate aminotransferase, radioimmunoassay, mean corpuscular volume 71
effect of pregnancy on CDT, absolute or relative values?, % CDT results 537
γ-glutamyltransferase, alcohol dependence 731
laboratory markers of alcohol abuse, 2-sialotransferrin quantified by isoelectric focusing, psoriasis patients 195
Carcinogenesis
N-nitrosomethylbenzylamine-induced oesophageal carcinogenesis, associated with lipid peroxidation, eicosanoid metabolism and polyunsaturated fatty acids 221
Catecholamines
creatine kinase isozymes, ST-segment changes, myocardial injury, cardiac function, withdrawal 185
Cell division
mitosis inhibition, cell cycle, proliferation of cells, cytophysiological effects of alcohol 145
Cerebrospinal fluid
nitric oxide in alcoholism 551
Chronic ethanol consumption
effects of chronic ethanol consumption on locus coeruleus, alcohol-preferring rats, morphometry 463
regulation of neuronal nitric oxide synthase (NOS) activity by chronic alcoholization in the rat, NOS activity in the cortex striatum 13
Compartmental model
effects of ethanol inhalation on transport and elimination of injected pyruvate, pyruvate kinetics, rat 555
Coronary disease
the significance of coronary death, alcoholism, cause-specific mortality 517
Cortex striatum
NOS activity in the cortex striatum, regulation of neuronal nitric oxide synthase (NOS) activity by chronic aicoholization 13
Cortisol
as a predictor of drunken violence, alcoholism, ASP 621
Court Diversion Schemes
psychiatric cases, screening for alcohol abuse 715
Culture
cultural differences in alcohol consumption, alcohol and mortality, epidemiological models of alcohol consumption, Temperance, coronary heart disease 51
Cytophysiological effects of alcohol
cell cycle/cell division, mitosis inhibition, proliferation of cells 145
Drinking
cortisol as a predictor of drunken violence, alcoholism, ASP 621
effect of drinking history on P300 wave amplitudes/wave latencies, genetics of alcoholism, event-related potentials 233
ethanol drinking behaviour in Sardinian alcohol-preferring rats, alcohol preference, anxiety 443
ethnic variation in drinking patterns 33
Government guidelines, safe-drinking levels, daily drinking, binge drinking 777
Dublin principles
Dublin principles of cooperation among the beverage alcohol industry, governments, scientific researchers and the public health community 637, 639, 641
Editorial
a New Year's message from the Chief Editors 1
Education and training of general practitioners
general practitioners' roles, early detection and management of alcohol problems, WHO study 9
Epidemiology
epidemiological models of alcohol consumption, alcohol and mortality, cultural differences in alcohol consumption, Temperance, coronary heart disease 51
ESBRA—6th Congress
abstracts from the 6th Congress of the European Society for Biomedical Research on Alcoholism 301

Ethanol
action of ethanol and some alcoholic beverages on gastric acid output in rats 23
effects of ethanol inhalation on transport and elimination of injected pyruvate, pyruvate kinetics, rat, compartmental model 555
ethanol metabolism, low-molecular weight metabolites, markers of alcohol dependence, alcohol withdrawal syndrome 761
ethanol absorption, ethanol distribution, blood alcohol concentration overshoot, empty stomach, body water 501
N-nitrosomethylbenzylamine-induced oesophageal carcinogenesis, associated with lipid peroxidation, eicosanoid metabolism and polyunsaturated fatty acids 221
voluntary ethanol consumption, 5-HT_3 receptor agonists, *m*-chlorophenylbiguanidine, 2-methyl-5-HT, Wistar rats 455
Ethnic variation
ethnic variation in drinking patterns 33
Event-related potentials
effect of drinking history on P300 wave amplitudes/wave latencies, genetics of alcoholism 233
Eye movement
the effects of alcohol on eye movement during reading, eye fixations/duration of fixations 275
Female alcoholism
alcohol dependence/abuse, predictive factors: childhood sexual abuse, intoxication before the age of 15, a general population study 267
screening, psychiatric comorbidity, SCL-90 questionnaire 725
Fertilization
alcohol and reproduction, in-vitro fertilization, ovulation, parthenogenetic activation of oocytes, fragmentation of oocytes, rat 563
Fetal alcohol syndrome
Bible/Talmud 3
metabolic and mitotic changes associated with fetal alcohol syndrome 423
Flumazenil
alcohol withdrawal, GABA-A receptor function, anxiety: a double-blind placebo controlled study 605
GABA
alcohol and GABA receptors, GABA binding, G proteins, islet-activating protein 153
defective function of GABA and serotonin in alcoholism, long-term abstinence, growth hormone secretion, GHRH, GHB, the sumatriptan test, arginine 85
GABA-A receptor function
flumazenil in alcohol withdrawal, anxiety: a double-blind placebo controlled study 605
Ganglioside GM1
free fatty acid incorporation into brain phospholipids, phospholipid acylation, acyltransferases, mouse 693
Gastric acid output
action of ethanol and some alcoholic beverages on gastric acid output in rats 23
Gastrointestinal factors
role of gastrointestinal factors in alcohol metabolism, alcohol dehydrogenase, cytochrome P450 2E1, mucosal injury, bacterial flora 543
General practitioners
education and training of GPs, early detection and management of alcohol problems, WHO study 9
general practitioners, alcohol education, identification of alcohol problems by GPs 627
Genetics of alcoholism
effect of drinking history on P300 wave amplitudes/wave latencies, event-related potentials 233
γ-Glutamyl transpeptidase
isoforms in alcoholic liver disease, alcoholic hepatitis, cirrhosis 259
γ-Glutamyl transferase
carbohydrate-deficient transferrin, alcohol dependence 731
Growth hormone secretion
defective function of GABA and serotonin in alcoholism, GHRH, GHB, the sumatriptan test, arginine, long-term abstinence 85
Gustatory preferences
saccharin intake/quinine intake, anxiety, hyperactivity, locomotor activity, alcohol consumption, hyperactive/normoactive Wistar–Kyoto rats 485
Head injury
thiamine deficiency, Wernicke–Korsakoff syndrome 493
Health warning levels
warning label legislation, alcohol harm, Israeli Arab and Jewish youth knowledge: pre-intervention data 251
Helping alliance
the relationship between helping alliance and outcome in outpatient treatment of alcoholics, psychiatric treatment, multimodal behavioural therapy, therapy outcome 241
Hepatitis C virus
the role of hepatitis C virus in alcoholic liver disease, hepatocellular carcinoma 103
Hippocampal formation
dentate gyrus, withdrawal, chronic alcohol consumption, piracetam, intracerebral graft, rat 471
Home detoxification
cost effectiveness, GPs, in-patient detoxification, problem drinking, supervision, scales for assessment, severity of alcohol dependence 649
Lipid peroxidation
eicosanoid metabolism, polyunsaturated fatty acids, *N*-nitrosomethylbenzylamine-induced oesophageal carcinogenesis, ethanol 221
Liver
does liver dysfunction explain neuropsychological status?, alcohol dependence, hepatic encephalopathy 287
IgG, antibodies to LDL, acetaldehyde-modified LDL, in alcoholics with liver disease 43
microvesicular/macrovesicular fatty changes, alcohol intake, starvation, alcohol-related sudden death 745
Locus coeruleus
effects of chronic ethanol consumption on locus coeruleus, morphometry, alcohol-preferring rats 463
Long-term outcome
in an alcohol-treatment programme, drinking status at follow-up, alcoholism 527
Low-density lipoproteins (LDL)
acetaldehyde-modified LDL, antibodies to LDL, IgG, in alcoholics with liver disease 43

Markers of alcohol dependence
ethanol metabolism, low-molecular weight metabolites, alcohol withdrawal syndrome 761
Menstrual cycle phases
alcohol intake, alcohol pharmacokinetics, women 435
pre-ovulatory oocyte, teratogenic effects of alcohol, prenatal exposure, spindle poison 113
Metabolites
low-molecular weight metabolites, ethanol metabolism, markers of alcohol dependence, alcohol withdrawal syndrome 761
Mortality
association between alcohol consumption and mortality and morbidity, hospital admissions 173
mortality of treated alcoholics, treatment outcome 573
Multimodal behavioural therapy
psychiatric treatment, the relationship between helping alliance and outcome in outpatient treatment of alcoholics, therapy outcome 241
Myocardial injury
ST-segment changes, creatine kinase isozymes, catecholamines, withdrawal 185
Neuropsychological status
does liver dysfunction explain neuropsychological status?, alcohol dependence, hepatic encephalopathy 287
Nitric oxide
in alcoholism, neuronal nitric oxide, cerebrospinal fluid nitrite and nitrate 551
Nitric oxide synthase (NOS)
in vitro inhibition of NOS by alcohol, conformation of NOS, cerebellum, tetrahydrobiopterin, L-arginine 683
regulation of neuronal nitric oxide synthase (NOS) activity by chronic alcoholization, NOS activity in the cortex striatum 13
Nuclear magnetic resonance signal intensity
of ethanol *in vitro*, tolerance, rat brain 671
Outpatient treatment
the relationship between helping alliance and outcome in outpatient treatment of alcoholics, psychiatric treatment, multimodal behavioural therapy, therapy outcome 241
Ovulation
alcohol and reproduction, in-vitro fertilization, parthenogenetic activation of oocytes, fragmentation of oocytes, rat 563
P300
wave amplitudes/wave latencies, effect of drinking history, event-related potentials 233
Polygenic mechanisms of alcohol-related disorders
alcohol dehydrogenase polymorphisms, identification of the *ADH2*3* allele in Native American Indians 129
Predictive factors
childhood sexual abuse, intoxication before the age of 15, alcohol dependence/abuse, female alcoholism, a general population study 267
Pregnancy
alcohol consumption, immune status, human milk, postpartum blood, leucocytes, cytokines 581
carbohydrate-deficient transferrin (CDT), % CDT results, absolute or relative values? 537
maternal alcohol consumption, alcohol and spontaneous abortion, cirrhosis, socioeconomic status 211
Pre-intervention data
health warning levels, warning label legislation, alcohol harm, Israeli Arab and Jewish youth knowledge 251
Psychiatric cases
screening for alcohol abuse, Court Diversion Schemes 715
Psychiatric treatment
multimodal behavioural therapy, the relationship between helping alliance and outcome in outpatient treatment of alcoholics, therapy outcome 241
Pyruvate
effects of ethanol inhalation on transport and elimination of injected pyruvate, kinetics, rat, compartmental model 555
Questionnaires
SCL-90 questionnaire, screening, female alcoholics, psychiatric comorbidity 725
Receptor agonists
5-HT_3, *m*-chlorophenylbiguanidine, 2-methyl-5-HT, voluntary ethanol consumption, Wistar rats 455
Retinoic acid
changes in human serum alcohol dehydrogenase activity during retinoic acid treatment of cancer 739
Screening
female alcoholics, psychiatric comorbidity, SCL-90 questionnaire 725
psychiatric cases, Court Diversion Schemes 715
SECCAT Survey
alcohol-related problem questionnaire, self-reported alcohol consumption, quality of life, cost of alcohol-related problems 79
Serotonin
defective function of GABA and serotonin in alcoholism, long-term abstinence, growth hormone secretion, GHRH, GHB, the sumatriptan test, arginine 85
2-Sialotransferrin
quantified by isoelectric focusing, laboratory markers of alcohol abuse, carbohydrate-deficient transferrin, psoriasis patients 195
Superoxide dismutase
alcoholism/dependence, oxidative stress associated parameters: lactoferrin, free radicals, dependence 65
Synapse numbers
dendritic segment deletion/neuronal abnormalities: recovery after long-term alcohol treatment, ageing and alcohol 161
Thiamine
increasing incidence of Korsakoff's psychosis and Wernicke's encephalopathy in the East End of Glasgow 281
thiamine deficiency, head injury, Wernicke–Korsakoff syndrome 493
Wernicke's encephalopathy, thiamine deficiency, parenteral thiamine, Korsakoff's syndrome: the balance of risks and perception of concern 207
Tibial shaft fractures
bone formation/bone resorption, osteopenia, healing time, alcohol abuse 91
osteopenia in alcoholics 599
Wernicke–Korsakoff syndrome
thiamine deficiency in head injury 493

Wernicke's encephalopathy, Korsakoff's psychosis, increasing incidence in the East End of Glasgow, thiamine 281
parenteral thiamine, Korsakoff's syndrome: the balance of risks and perception of concern 207
World Health Organization study
education and training of GPs, early detection and management of alcohol problems 9
Withdrawal
cardiac function, catecholamines, creatine kinase isozymes, ST-segment changes, myocardial injury 185
chronic alcohol consumption, hippocampal formation, dentate gyrus, piracetam, intracerebral graft, rat 471
flumazenil in alcohol withdrawal, GABA-A receptor function, anxiety: a double-blind placebo controlled study 605
sex hormones: a study of 29 male alcoholics during detoxification 591
